- Fullstack web developer

Projects

PetNanny (Petsitter full stack MERN website)

Jan 2023

- My tasks: Implemented the user profile page, update user form and update profile picture form.
- Created backend skeleton which includes seeding, models, schema, queries and mutations.
- Utilised MongoDB, Bootstrap-React, JWT, GraphQL and React to manage data, design responsive interfaces, handle secure user authentication and authorization, handle efficient data retrieval and manipulation and create dynamic user experience.

Purrfection (E-Commerce buying and selling pets)

Nov 2022

- My tasks: Included a user authentication system, backend API and seeding, profile page, and upload function feature.
- Utilized Handlebars, MySQL, Express, and Tailwind to create a visually appealing and user-friendly platform.

Holiday Calendar (Wiki facts about holidays)

Sep 2022

- Led and delegated a team to complete the project.
- Utilized Node.js and Tailwind and implemented Wikipedia and Giphy APIs to provide dynamic content to users.

Developer Skills

- Confident in using backend server frameworks and middlewares such as Apollo Express, Sequelize, Mongoose and Express-GraphQL.
- Experience with modern web development frameworks and libraries such as React, Node.js, and Express.
- Proficiency in HTML, CSS, and JavaScript.

- Includes 3rd party libraries - Handlebars.js, Tailwind & Bootstrap CSS, and JQuery.
- Familiarity with database languages such as MySQL and MongoDB.

Work Experience

Freelance Piano Instructor

2019 - Present

- Communicated with students and parents to understand their needs and goals.
- Taught and trained students of all ages and skill levels in piano.
- Adapted teaching style to fit the needs and learning styles of individual students.
- Managed time effectively to plan and execute lessons, meet deadlines, and accommodate busy schedules.
- Prepared students for piano exams with tailored lesson plans and ample practice time.

Food and Beverage Attendant

Oct 2019 - Dec 2021 (Sir Stamford at Circular Quay)

- Managed time effectively to complete tasks and meet deadlines in a fast-paced environment.
- Interacted with customers to provide excellent service and resolve any issues that arose.
- Resolved customer complaints by offering a complimentary meal on their next visit.
- Adapted to changing situations and provided solutions to problems that arose. - Quickly came up with an alternative when we ran out of a popular menu item.

CERTIFICATIONS

Japanese Language Proficiency Test N1 Certification

Dec 2019

- Demonstrated advanced proficiency in reading, writing, and understanding Japanese language and culture.
- Scored top 18 percentile
